

JULIO CESAR SILVA

Software Engineer

Lima, Peru • jcsile444@gmail.com

SUMMARY

Software Engineer with 7+ years of experience building scalable web applications across frontend and backend technologies. Experienced in Python, Go, React, Vue.js, Django, distributed systems, and developer tooling. Passionate about software architecture, AI-assisted development workflows, and creating scalable engineering solutions.

Technical Skills

- **Languages:** Python, Go, TypeScript, JavaScript
- **Frontend:** React, Vue.js, Nuxt.js, HTML5, CSS3, Tailwind CSS
- **Backend:** Django, Laravel, Node.js, Celery
- **Databases:** PostgreSQL, MySQL
- **APIs:** REST, GraphQL
- **Cloud & DevOps:** Docker, GitHub Actions, CI/CD
- **Practices:** Distributed Systems, Agile, System Design, Design Systems

Software Engineer | Thoropass (Remote)

Nov 2021 – Present

Enterprise compliance automation platform

- Designed and delivered end-to-end product features using Django and React, from technical design through production deployment.
- Architected distributed workflow systems using Django and Celery, improving scalability, reliability, and background task processing for compliance automation workflows.
- Explored and evaluated emerging AI technologies, integrating AI-assisted development workflows that improved engineering productivity, documentation quality, and software delivery.
- Designed and built internal developer tooling, including reusable npm packages and GitHub Actions CI/CD workflows, accelerating development across 5+ engineering teams.
- Developed reusable React components and contributed to the company's design system, ensuring a consistent user experience across product modules.

- Performed technical analysis of complex product requirements, identifying edge cases, evaluating trade-offs, and proposing scalable solutions that prevented production issues.
- Collaborated closely with product managers, designers, and security engineers to translate business requirements into robust technical solutions.
- Shared engineering knowledge through internal Tech Talks covering architectural decisions, development best practices, and new technologies.

Software Engineer | Encora (Remote)

Nov 2020 – Oct 2021

Assigned to Thoropass – Enterprise compliance automation platform

- Developed full-stack features using Django and React, delivering functionality for enterprise compliance workflows.
- Developed backend services and GraphQL APIs using Django, Django ORM, and PostgreSQL, enabling scalable and maintainable data access for frontend applications.
- Collaborated with product managers, designers, and QA engineers to refine requirements and deliver high-quality software.

Software Engineer | Globant (Lima, Peru)

Apr 2019 – Nov 2020

Client: Autodesk

- Developed enterprise web applications using React and Vue.js for Autodesk products serving enterprise customers.
- Designed reusable UI components and integrated REST APIs to deliver scalable, maintainable frontend features.
- Improved application maintainability by implementing reusable component patterns and state management solutions.
- Collaborated with distributed engineering teams throughout the software development lifecycle, participating in sprint planning, estimation, code reviews, and architectural discussions.
- Worked closely with designers, backend engineers, and product stakeholders to deliver high-quality user experiences in an Agile environment.

Junior Software Developer | Arya Peru

2017 – 2018

- Modernized legacy JavaScript applications by leading its migrations to Vue.js, significantly improving maintainability and application performance.
- Evaluated and introduced modern Vue.js technologies, helping establish updated frontend development practices.

- Developed REST APIs using Laravel and MySQL for web and mobile applications.
- Collaborated with designers and stakeholders to deliver client-focused digital solutions.

EDUCATION

Bachelor of Science in Computer Science

Universidad Nacional de Ingeniería (UNI), Lima, Peru

ADDITIONAL QUALIFICATIONS

Languages: English (Advanced), Spanish (Native), Japanese (Basic)
